Description of project	<p>Following the success of the previous edition of the “Game with Mum &amp; Dad” project at the Iași Maximum Security Prison — an initiative that was extremely well received by the children involved, their parents, prison staff and social work professionals — Alternative Sociale proposes to expand the initiative at the national level by organizing activities in three prisons across Romania.</p> <p>These prisons will be selected after the project is approved, based on criteria related to logistics and institutional openness to cross-sectoral collaboration. The main objectives are:</p> <ul style="list-style-type: none"> <li>- To maintain and strengthen the emotional bond between children and their incarcerated parents;</li> <li>- To promote the rights and needs of children affected by parental imprisonment among professionals and the general public;</li> <li>- To foster collaboration between prisons, NGOs, and social institutions in support of a child-centered approach;</li> <li>- To increase the visibility of this category of children and reduce their stigmatization.</li> </ul> <p>Activities will include: planning and organizing joint games (with attention to inclusion and gender equity), psychosocial preparation of children and parents by social workers from Alternative Sociale, the actual implementation of the events, and a communication campaign through both traditional and social media. In addition, a regional advocacy event will be organized, with the support of the National College of Social Workers in Romania, aimed at bringing together stakeholders from multiple relevant sectors to discuss the project results and identify necessary solutions to support children with incarcerated parents.</p> <p>The project will uphold the principles of inclusion, gender equality, and child participation throughout all its phases.</p>

<b>Legal name of organisation</b>	<b>Małopolskie Stowarzyszenie Probacja</b>
EU Member State of establishment	Poland
Title of the project	Game with Mum & Dad
Description of project	<p>As part of the 2025 edition of the Game with Mum &amp; Dad – Poland 2025 project, the Małopolska Probation Association plans to engage individuals serving sentences in 5 penitentiary institutions. The initiative will involve approximately 180 incarcerated parents and their families, including around 60 children.</p>

	<p>In each participating facility, special family visitation events will be held, centered around friendly football games. In institutions equipped with sports fields, games will take place within prison grounds. In facilities without such infrastructure, games will be organized outside the prison, at locations designated by the prison administration. Prior to each game, professional coaches from the Polish Football Association (PZPN) will conduct brief training sessions and warm-ups. As in the previous year, PZPN is partnering with the project at the Association's invitation. All match participants will receive commemorative T-shirts.</p> <p>Following the matches, a family picnic will be held, creating a safe and informal space for children to play freely and spend quality time with their parents. A central aim of the event is to enable physical closeness and natural interaction between children and their incarcerated parents—something not possible during standard visitations conducted in visiting rooms.</p> <p>Project implementation is based on existing cooperation agreements between the Małopolska Probation Association and the respective correctional institutions. The experience gained during last year's edition—enthusiastically received by prison staff—will significantly support this year's activities. Additionally, new penitentiary institutions will participate in 2025, marking their first involvement in this type of event.</p> <p>As a project culmination, a study trip to Warsaw will be organized for a group of children. During the visit, they will have the opportunity to personally meet with representatives of the Ministry of Justice, the Central Board of the Prison Service, and the Parliamentary Committee on Justice—individuals who shape legislation directly impacting children visiting their incarcerated parents. The children will symbolically present autographed footballs from the GWMD games and share their personal stories, experiences, and needs.</p> <p>The promotion of the project will take place in the media and on social media platforms.</p>
